

# CONCRETE

## POST AND RAIL FENCING

# Durable **REINFORCED CONCRETE** posts and rails with an authentic timber grain on all sides.

The concrete post and rail fence replicates the look of traditional timber fencing whilst offering the strength and longevity of reinforced concrete. There is no maintenance required, they will never need to be painted. The concrete posts and rails will not warp, twist or rot and there are no white ant issues.

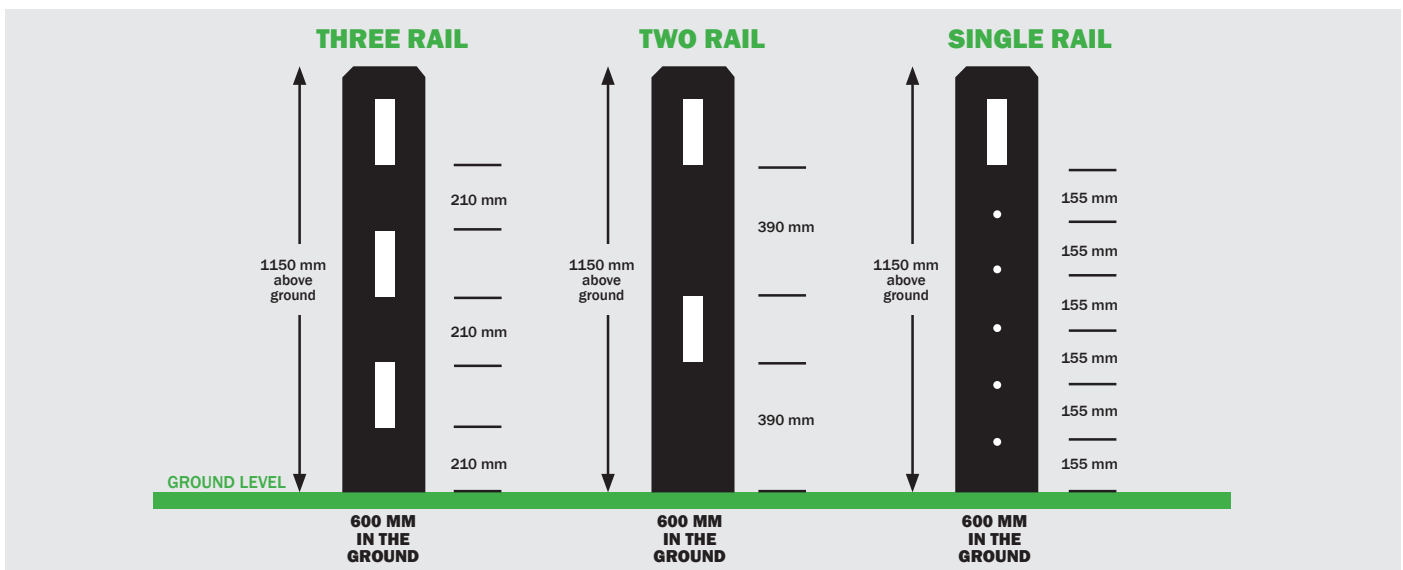

**TERMITE SAFE**

**MAINTENANCE FREE**

**LONG LASTING**
